TERSE TALES OF THE TOWN

Mr. and Mrs. A. V. Allen left yesterday morning for Hot Springs, Arkansas, for several months stay, and will spend the winter in the celebrated health resort.

Drawing Class—
Miss Belle Mattley will receive her pupils in drawing at her studio, room 7, at 680 Commercial street, on Saturdays, from 9 a. m. to 5 p. m. Rates reasonable. 11-24-21.

Cannery Shuts Down—
The cannery on the Siuslaw has been compelled to close down on account of lack of cans. They have packed this season about 12,000 cases and over 125,000 pounds of salmon in tins.

The Chance is Yours—
A glance at the advertisement of Charles Heilborn & Company, in this issue, will indicate to you where and what that chance is, and what it is worth to you.

Thanksgiving Market—
Among the "goodies" now quoted in the Astoria market for Thanksgiving dinners, turkeys opened yesterday morning at 27 cents per pound, but dropped during the day to 25 and will prevail at that figure; while geese are plenty at 20 cents per pound, and chickens at 15 and 20 cents.

Went to Roost—
Charley Brown, the Commercial street shoe merchant, put a couple of fine gobblers in his big show windows last evening, and the doomed birds immediately went to roost in a pair of huge antlers that happened to be in the window, and they did it utterly indifferent to the swarm of people thronging the front on the hither side of the plate glass.

His First Capture—
Willie Houghton lately made his first killing in the elk line, and the proof of his skill is found in a splendid head and five-pronged set of antlers.

handsomely mounted by his father, who, by the way, was out hunting with the boy when the latter made his inning, while Mr. Houghton bagged nothing for his day's sport, much to the son's elation. The horns are on exhibition in Charles V. Brown's store.

Light Business—
Aside from the other instruments filed for record at the county clerk's office yesterday there were but two deeds sent in, to wit: John Kopp to the Northwest Brewing Company, part of lot 3, in block 147, Shively's Astoria; consideration, \$100. The Theo Kruse Catering Company, to A. C. Schow, lot 11, block 6, second addition to Gearhart Park, consideration, \$125.

The Chance is Yours—
A glance at the advertisement of Charles Heilborn & Company, in this issue, will indicate to you where and what that chance is, and what it is worth to you.

Niek Christiansen of Albert, Oregon, was a business visitor yesterday.

Notice to the Public:

THE STAR THEATER

Despite the untoward condition of the weather last night, the Star theater was crowded to the doors.

Johnes and Raivelles, who are holdovers from last week, appeared in a sketch entitled, "Pooling the Servant." Miss Raivelles appearing as a mechanical doll. The act went nicely.

Dick Hutchins is still holding his own, and his song, "The Little Boy Called Taps" was well received. The marvellous Malcoms, the juvenile globe rollers, gave a fine exhibition of globe rolling, the act being introduced by Miss Malcolm in a very pretty serpentine dance.

Jim Dervin, the monologist, kept his audience in good humor during his stay on the stage.

The moving picture, "The Slave's Love," is a tragic story that is very realistic and thrilling.

Richard Charles & Co. appeared in a very laughable afterpiece called, "The Fellow that Looks Like Me," sending the audience home in good humor.

To Organize Gymnasium—

The younger set among Astoria's rising manhood are greatly interested in the proposition of organizing and outfitting a gymnasium. This would undoubtedly be a good scheme as the young men would have a pleasant and healthful means of spending the long winter afternoons and evenings. Especially would this plan be feasible at this time as Astoria has recently acquired as a resident Prof. V. von Holstein Rathou, who was the champion boxer of Denmark, no later than last year. This young man is also a teacher of gymnastics and a boxing instructor of no mean ability. Coming from a noble Danish family he has chosen this part of the United States as his home and the young people of Astoria who are desirous of furthering the gymnasium plan would do well to get together and with the aid of Prof. von Holstein Rathou form a gymnastic club and afford themselves and the city's residents the pleasures that are derived from athletic exercises and attendant exhibitions.

Receives Many Letters—

The Chamber of Commerce mail continues to hold up to extraordinary figures. There were received Saturday and yesterday 271 letters in answer to the Chamber's advertisements. The number and variety of inquiries received vary from whether or not a lawyer can come into this state and practice without passing an examination, to the best place in which to invest money of large and small amounts. Those who answer the advertisements are no respectors of Governor Chamberlain's many recent proclamations.

The Grace of Cash—

Cash is always the important thing with most men and women, and when it has the grace of low figures for desirable goods, it means more than ever to all concerned. That's what it means is the Charles Heilborn & Company schedules of reductions, published in this issue.

Chinook Spawn—

Supt. Joseph Stenmons of the hatchery on the Siuslaw reports that the hatchery has taken so far this season over 800,000 Chinook eggs and about 750,000 silver sides. The South Coos hatchery has been up against very low water and few Chinook salmon have come up the stream, but there have been plenty of silver sides. The water is still very low in the Coquille but the present storm should cause it to raise and the southern hatcheries expect to take several million Chinook eggs.

Figures Don't Lie—

Published figures, over the name of a reliable firm have a convincing ring and hold the essence of advantage to whoever shall use them. Note the string of quotations in the Charles Heilborn & Company ad, in this issue.

GRIST FROM CITY'S MILL

PROTESTS FILED AGAINST PAYING FOR SEWER REPAIRS—WOULD TRANSFER SALOON BUSINESS—OTHER MATTERS.

C. L. Parker has filed a protest with Auditor Anderson against paying for repairs to the sewers on Ninth street. The protests alleges that some years ago a terra cotta sewer was laid in the street adjacent to the Parker House property and the full amount of the expense assessed against the protestant at that time. Some time ago, it is further claimed, one Contractor Goodwin, while making repairs broke through the sewer, although it was in good condition, and the contractor should have replaced the damage caused by such breaking, instead of charging repairs to property owners. The petition further protests against paying for opening and correcting a stoppage in the same sewer on Bond street.

Chas. Dahlstrom has petitioned the Council to give him permission to transfer his liquor license and business from the corner of Commercial and Twentieth streets to 384 Commercial street, between Eighth and Ninth.

Property owners on Exchange and Eleventh streets have filed a remonstrance against the proposed improvements on those streets, claiming that most of the property is unimproved and therefore not remunerative and that the tax payers are having a strenuous time to pay the taxes assessed against those properties. The petitioners also state that owing to the present financial stringency they doubt the advisability of making the proposed improvement at this time.

The executive proclamation continuing the legal holidays gave the City Dads another week's respite from the arduous labors which are confronting them. All sorts of claims and petitions are piling up for their consideration and when the holidays finally end, the councilmen will have to roll up their official sleeves and wade in to the clearing them out of the way.

Pressed Bricks—

Mamer Brothers, the brick-makers of Campus, Ill., have made a pressed brick out of clay sent them by the Chamber of Commerce of this city, and the brick has been returned here and may now be seen on exhibition in the rooms of the Chamber of Commerce.

It would be difficult to find a more handsome pressed brick than this. The color is a deep red. The clay out of which the brick was made was sent to the Mamer Brothers from the Bartoldus farm several months ago.

While a great many tests of various inds have been made of the clays here for the purpose of ascertaining whether or not they were well adapted to the making of brick, this test is the most conclusive of all, and shows that just as good brick can be made here as anywhere in the country.

The clay out of which this brick was made is of a grayish color and is to be found in great abundance along Young's river.

Football Thanksgiving—

A great deal of enthusiasm is being manifested among the members of the Astoria Football Team over the coming game with the Chemawa Indians, which will take place at the A. F. C. grounds on Thanksgiving day. The line up has not yet been prepared but probably will be the same as in the game with Aberdeen. Indoor practice has been indulged in faithfully, owing to the importance of the game, and the boys will be well prepared for the contest which will surely be a hot one. Rain or shine, the game will be played and no doubt a large crowd will be in attendance.
